## Objective:

My goal is to become a productive and helpful member of your organization. As a seasoned programmer, writer & visual communicator I have completed dozens of projects on behalf of local, national & global brands. I always bring an element of learning and teaching to my work; I like to help, and I am confident I would be a valuable member of your team.

## Education:

Bachelor of Science, *University of Oregon*,  
Magazine Journalism & Digital Arts (2006)

## Skills:

Advanced HTML/CSS/JS. Node, React, Vue, etc.  
Design, Prototyping, Adobe Creative Suite, et al.

## EMPLOYMENT HISTORY:

---

### **Freelance Web Developer, *Self-Employed*** – February 2024 - Present - Portland, Oregon

Between working at full-time roles (listed below) I am available for work as a freelance web developer offering full-stack web development services to businesses and design firms in the Portland Metro area. I provide design, strategy, edits and develop new websites in a variety of technologies including Node, React, Vue and WordPress.

---

### **Full Stack Web Developer, *Riot New Media*** – July 2023 – February 2024 - Portland, Oregon

As a Full Stack Developer with *Riot New Media* I worked as part of a team of creative professionals to help produce the multifaceted online publication and the associated websites, APIs and services. A core focus area was the creation/maintenance of custom WordPress blocks/plugins using the React/Gutenberg libraries.

---

### **Senior Frontend Developer, *Pollinate*** – October 2013 – September 2021 - Portland, Oregon

As a Senior Frontend Developer with *Pollinate* I collaborated with graphic designers, copywriters, UX designers, project managers and 3D artists to build interfaces for websites, web apps and product customizers on behalf of local and national clients.

---

### **Web Developer, *R2C Group*** - May 2007 – June 2012 - Portland, Oregon

As a Web Developer with R2C Group I worked with a team of creative professionals to build landing pages and eCommerce websites for direct-response advertising campaigns on behalf of national brands. I implemented A/B tests, created email newsletters, banner ads, social media content and filmed/edited digital video.

---

### **Podcast Producer, *The Penny Jam*** – March 2008 – June 2010 - Portland, Oregon

As the Producer and co-founder I worked with a small team of audio/video professionals to create 30 finely-crafted podcast episodes at <https://thepennyjam.com>. I was the primary contact for all crew, bands/location owners, oversaw filming, graphic design, web development, podcast management, social media posting and live-event booking & management.

---

### **Technology Consultant, *University of Oregon*** - September 2003 – August 2006 - Eugene, Oregon

While working as a Technology Consultant for the Center for Educational Technologies in Knight Library I provided software training and technical support to UO faculty and staff. I worked with staff members, instructors and graduate students to develop and create multimedia materials, author presentations, graphic design and edit video for instructional usage.

---

### **Lifeguard and Swim Instructor, *City of Dallas*** - June 1998 – June 2003 - Dallas, Oregon

My first job was as a Lifeguard and Swim Instructor at the outdoor pool in Dallas, Oregon and later the Dallas Aquatic Center. In these roles I was required to complete and maintain CPR certification, swim training certifications and interact with the public to provide a safe and fun swimming experience. Like a lot of lifeguards I got started through swim team.
